

## PREBEN BRUGGEMAN APPOINTED CFO OF QRF

**QRF announces today the appointment of Mr. Preben Bruggeman as Chief Financial Officer (CFO). From 16 February 2015, Preben Bruggeman succeeds Francis Hendrickx whose function comes to an end, as planned, in early 2015.**

Preben Bruggeman (30) graduated as a Master of Commercial Engineering with specialization in Finance from the University of Antwerp. In parallel, he graduated at the same university with a bachelor's degree in Philosophy. Bruggeman subsequently completed the 3 levels of the CFA (Chartered Financial Analyst) programme.

Preben Bruggeman has worked for seven years at Bank Degroof, of which three as an equity analyst for the real estate sector and 4 years as Real Estate Manager in the real estate department. There he played an active role in a number of capital market transactions (issuance of equities, bonds and real estate certificates), the creation of "*private equity*" funds and assisting companies with mergers and acquisitions in the real estate sector.

Bruggeman looks forward to his new challenge with enthusiasm: "Qrf is a young and dynamic company specialized in the attractive segment of retail real estate. I am looking forward to making my contribution to the successful execution of the strategy and to helping build the future growth of the company."

"We thank Francis Hendrickx for the good cooperation and the results achieved since the IPO in December 2013. Since it had been envisaged from the outset that Francis would exercise its mandate until early 2015, we had enough time to find a suitable successor in the market. Preben combines strong financial knowledge with analytical and commercial skills. We are confident that the financial expertise he has built up as an investment banker in the real estate investment sector will further strengthen our organization," says Qrf CEO Anneleen Desmyter.
